Capability Statement

Business consulting for science and technology ventures

A Puerto Rico-based consulting and venture studio helps organizations plan, build, and operate science and technology initiatives through strategic advice, digital systems, financial data workflows, research, market intelligence, and specialized assurance.

Core competencies

Venture strategy and commercial development
Business planning, organizational and opportunity assessment, proposal and funding support, strategic partnerships, enterprise opportunities, and intellectual property discussions.

Market intelligence, data science, and AI
Market and company research, technology sector analysis, organizational risk assessment, data curation and annotation, and AI or machine learning workflow implementation.

Digital infrastructure and financial operations
Managed domains, DNS, business email, websites, digital workspaces, applications, workflow systems, financial data reconciliation, and reporting controls.

Scientific research and AI assurance
Scientific programming, research analysis and communication, publication workflows, and adversarial evaluation of scientific models, research agents, and sensitive data systems.

Capabilities

Managed digital infrastructure and service operations
A managed online foundation for small science, technology, consulting, and analytics teams.
Contributing teams: InfraOps
Starting at $500 per month

Suggested NAICS

Suggested PSC
B524, B529, and B544 studies and analysis.

Who we support

We work with organizations that turn specialized knowledge, services, and analysis into practical outcomes.

Science, research, and technology · Research groups, science-driven ventures, biotech and AI startups, university spinouts, and teams that depend on reliable digital systems and evidence.
Professional firms and analytical teams · Accounting and law firms, consultancies, quantitative teams, and other service organizations that need dependable infrastructure, workflow support, market intelligence, or financial data operations.
Builders and independent operators · Construction businesses, contractors, and skilled-trade operators seeking clearer digital operations, customer communication, and practical technology.
